Abbreviations (US)

ch = chain
sl st = slip stitch
hdc = half double crochet
st(s) = stitch(es)
RS = right side
WS = wrong side
yo = yarn over
tch = turning chain (ch 2 here: never counted, never worked into)
Cream / Green = the two colors: Cream and Forest Green
S (M, L, XL, 2X) = numbers for each size: the first is S, the others follow in order

Gauge

Gauge swatch is required, not optional. Suggested only, not swatched: 13 hdc and 9 rows = 4 in (10 cm) in hdc with US I-9 (5.5 mm), colorwork rows included. Your rows and stitches may be fewer or more than we show: measure your swatch and adjust.

Notes

- US crochet terms: see the abbreviations above. Sizes: S, M, L, XL, 2X. Numbers are written S (M, L, XL, 2X).
- Turning ch (ch 2): it does not count as a st. Work the first hdc in the very first st and the last hdc in the last st of the row, never in the turning ch.
- Hdc: yarn over, insert the hook under both top loops of the next st (the V), yarn over and pull

up a loop (3 loops on the hook), yarn over and pull through all 3 loops.
- Back bump: the bump on the back of each foundation ch. Row 1 goes in the back bumps. Keep the foundation chain loose: use a hook one size up for it if you tend to chain tight.
- Row 1 of every piece is a right-side (RS) row, so odd rows are RS and even rows are WS. The chart shows the band as seen from the right side: RS rows are read right to left, WS rows left to right.
- Carrying the yarn: in every band row, hold the color you are not using along the top of the stitches of the row below and work your hdc over it, so it is inside the stitches. Do this for the whole row, also on the stretches where that color is not used. Then the yarn is always waiting where the next row needs it and the back stays free of loops. Honest warning: carried yarn makes the fabric thicker and tighter than plain hdc, the Green can show through the Cream, and a tree can lean a little between right-side and wrong-side rows. We have not tried this ourselves: the swatch tells you.
- Changing color: work the hdc before the change up to the last step: you have 3 loops on the hook. Drop the old color (it is carried over the next sts) and pull the new color through all 3 loops. The change happens on that last pull-through, so the new color shows in the next st. Pull the carried yarn gently: tight strands pucker the fabric.
- Every band row starts and ends with Cream (the trees never touch the first or last 3 sts), so the turning ch is always Cream. The Green is joined at the first tree in Band Row 1 (its 6 in tail is worked over, no end to weave) and cut at the edge in Band Row 11.
- [ ] times: do everything inside the brackets as many times as it says. A band row is the same pieces repeated; the numbers for your size are in the first part of each line.

Assembly

Rectangles seam row end to row end, so the counts below match.

Weave in ends

The Green has one end to weave in: the tail you cut at the edge of Band Row 11 (the tail you started with is worked over). Weave it into the side seam later. Weave in the other ends on the wrong side.

Stitch count: -

Block

Block the swatch AND the pieces, the band especially, to the measurements in the size table, following the yarn label. Rectangles seam much more easily when they are flat.

Stitch count: -

Pin first

For every seam, pin the first and the last rows (or sts) of the seam and the middle first, then sew between the pins.

Stitch count: -

Shoulder seams

Lay the front and the back flat, right sides up, tops of the stitches touching. With the needle, go under the 2 loops of the V of one st on the front, then under the V of the matching st on the back, and repeat across. Seam the first 15 (18, 20, 22, 25) sts and the last 15 (18, 20, 22, 25) sts of the top edge. Leave the middle 39 (39, 41, 43, 45) sts open: this is the neck (15 (18, 20, 22, 25) + 39 (39, 41, 43, 45) + 15 (18, 20, 22, 25) = 69 (75, 81, 87, 95) sts).

Stitch count: -

Mark the armholes

On each side edge of the front and of the back, count 19 (20, 21, 23, 24) rows down from the shoulder seam and put a marker. This is the armhole (the underarm marker).

Stitch count: -

Set in the sleeves

A sleeve has 38 (40, 42, 46, 48) rows (the rows run along the arm, so the short edges are row ends). Fold the sleeve in half: the fold is between its Row 19 (20, 21, 23, 24) and its Row 20 (21, 22, 24, 25). Put that fold at the shoulder seam and sew the armhole edge of the sleeve to the armhole: 19 (20, 21, 23, 24) rows on the front and 19 (20, 21, 23, 24) rows on the back, one row end to one row end. Do the same with the other sleeve.

Stitch count: -

Underarm and side seams

Sew the long edge of the sleeve with the foundation ch to the long edge with the last row (55 (57, 59, 60, 62) sts to 55 (57, 59, 60, 62) sts), then continue down the side of the body: 35 (36, 38, 38, 39) rows of the front to 35 (36, 38, 38, 39) rows of the back. The sleeve seam and the side seam meet at the underarm marker; sew them as one seam from cuff to hem. Repeat on the other side.

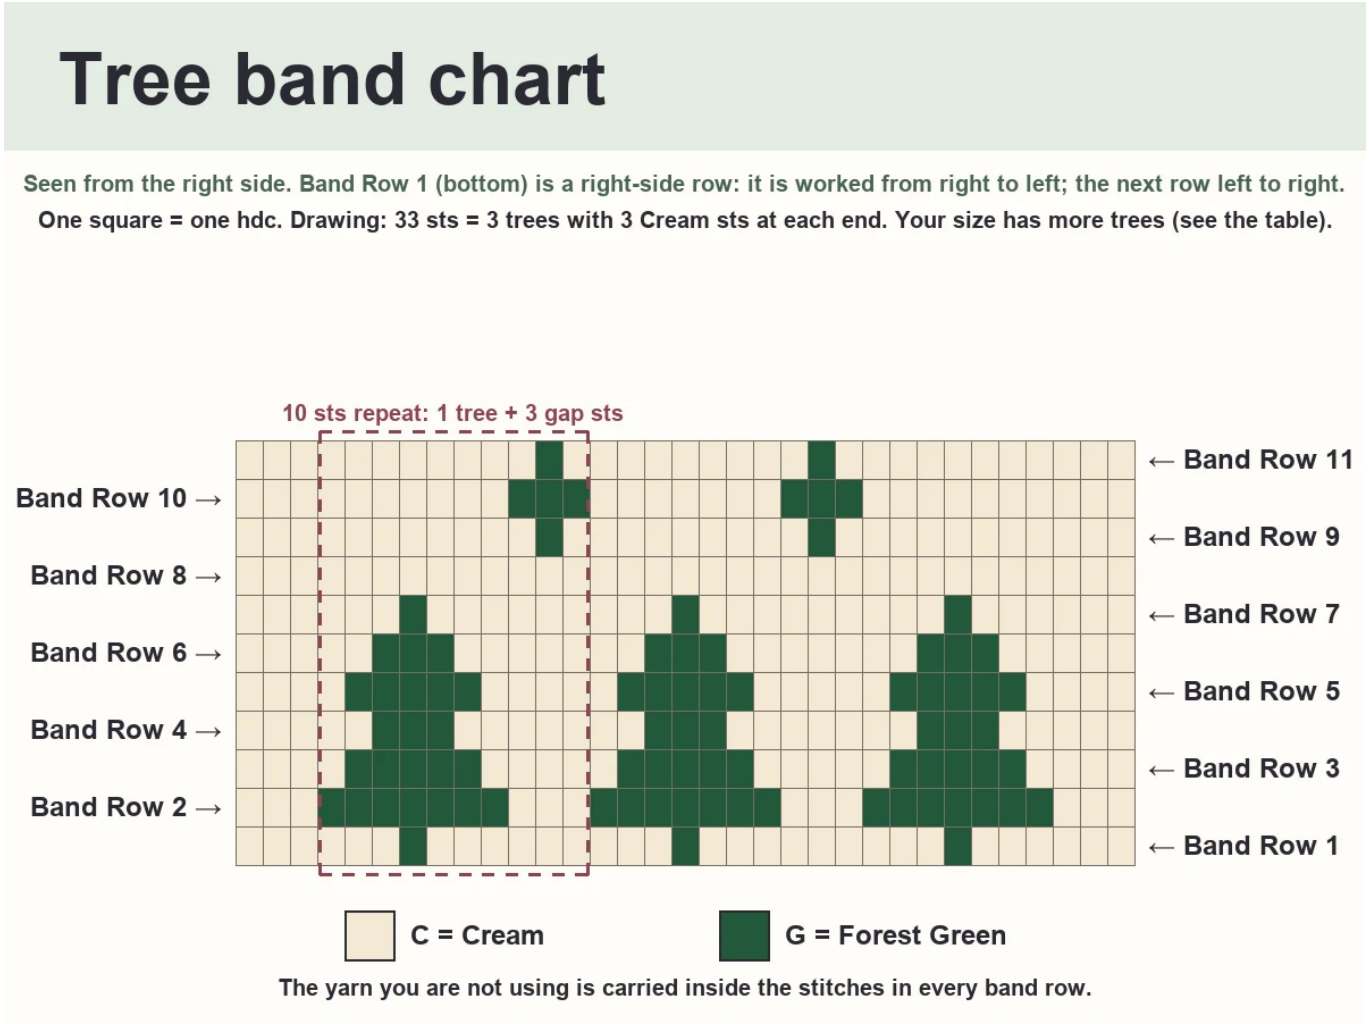

Stitch count: -

Finish

Weave in the seaming ends. The neck, hem and cuffs are left as they are (the edge of the hdc rows): no border to work.

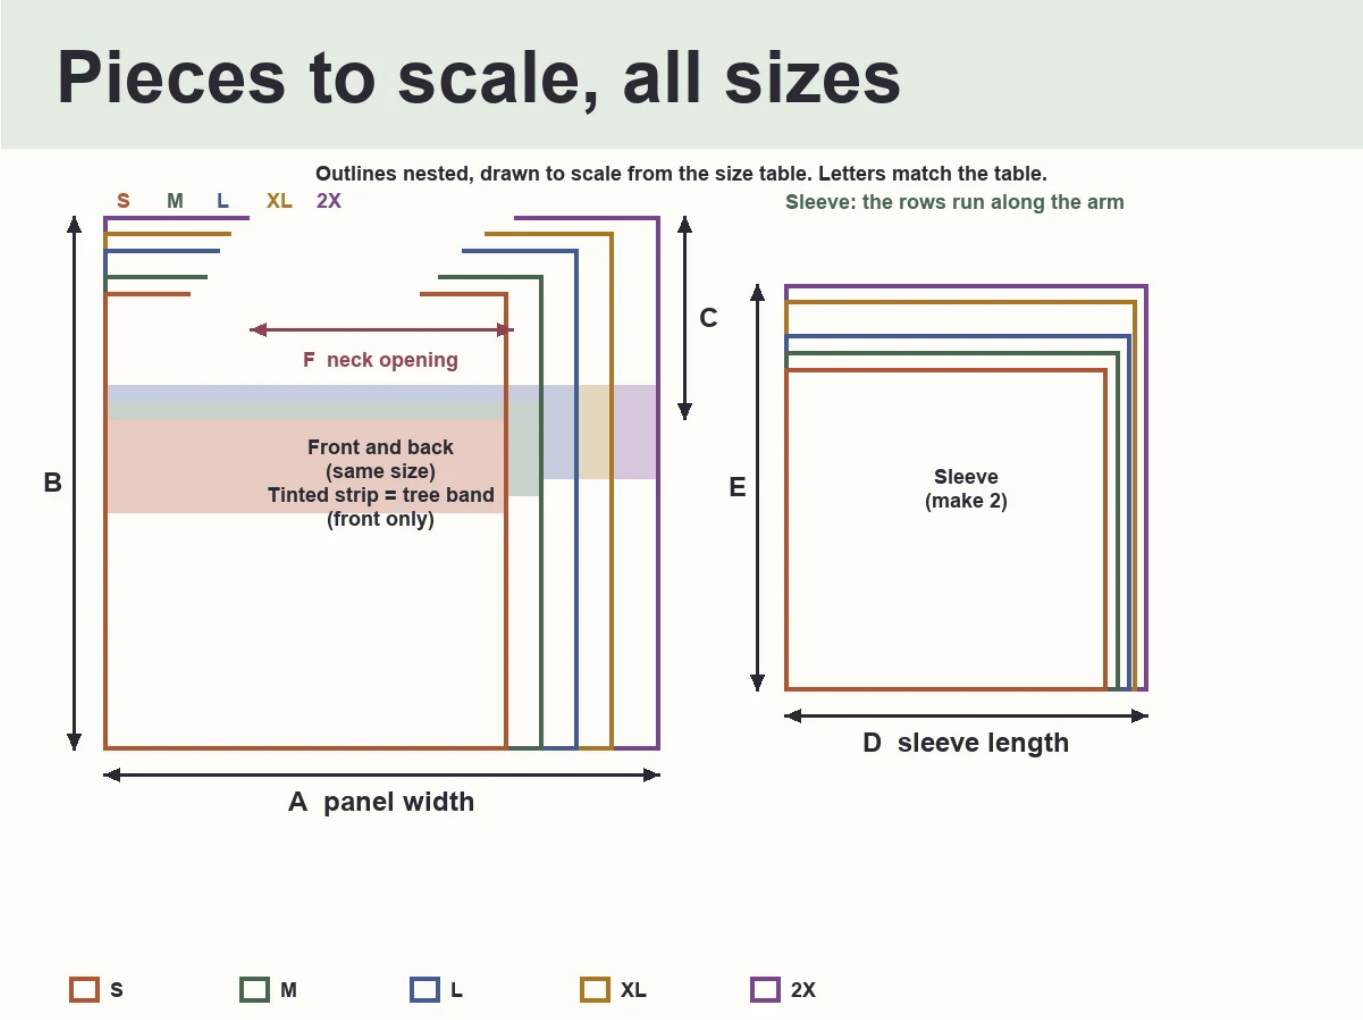

Stitch count: -

Chart

The 11 band rows drawn from our row model (33 sts, 3 trees so it fits on a phone); your size has more trees. One square is one hdc, drawn about 1.4 times taller than wide like a real hdc; your trees may look taller or shorter with your tension. A computer drawing.

Finishing

Try the sweater on before you block it. Check that every end is woven in, that the seams are flat and that the Green strands inside the band lie flat. Wash and dry the sweater as the yarn label says. You can lightly block it; follow the yarn label, and block the band especially.

Care: Follow the washing and drying instructions on the label of your yarn.
